EDUCATION

International Institute of Information Technology, Naya Raipur

August '17 - June '21

Bachelor of Technology in Computer Science

Naya Raipur, Chattisghar India

EXPERIENCE

Carl Zeiss July '21 – Present

Software Engineer

Bengaluru, Karnataka, India

- Utilized design patterns while improving upon various existing Eye charts implimentations using WPF while resolving memory leaks
- Worked on securing a video streaming service while minimizing re-render load on system

Carl Zeiss January '21 – June '21

FullStack Intern

Bengaluru, Karnataka, India

- Implemented various new methods, which were exposed as APIs using .NET framework to be utilised by frontend
- Created and deployed new gRPC servers for reducing coupling and introduce inter-processes communication channel between different services
- Utilized NUnit unit-testing framework and Fluent Assertions library for writing new unit test cases to improve the development and reduce turn around time in testing

PROJECTS

Meme Generator | JavaScript, React | WebApp

September 2020

- Designed easy to use single page interface for creating memes
- Utilized Canvas display logic for presenting editable images for users to add and drag text over to create memes
- Built features for the ease of downloading memes and upload custom images for your custom memes

DeepNeural Net Visualiser | *Tensorflow, Flask, Streamlit* | WebApp

June 2020

- Built a webapp for easier visualisation of hidden layers in a Neural Net in real-time
- Utilised Streamlit to create a clean frontend design to update the model layer by layer
- Deployed the project on free-tier Heroku service to be easily accessible by anyone

FunMark | Python | GitHub May 2020

- Developed a wrapper library for bench-marking different functions and allowing creation of graphical comparisons
- Released on PyPi package manager to be easily accessible with pip with currently over 2K downloads
- Wrote a blog on how to utilise the library efficiently jai-dewani.github.io/blogs/fun-mark/

Lab Works | HTML, CSS, Js, Bootstrap, Django, SQLite | GitHub

April 2019

- Built a web platform to ease the lab assessments for technical courses involving standard coding problems
- Devised a solution regarding issues with the manual process of lab assistants checking each submission manually
- Used 3rd party API which provides a safe environment to compile and run code while supporting wide range programming languages

TECHNICAL SKILLS
